Rygel

ProCanOil Spray Oil Concentrate

Active Constituent: 840 g/L CANOLA OIL

- Improves Chemical Uptake and Rainfastness
- Improves Drift Control and Droplet Deposition
- Assists with Odour Reduction and Evaporation

APVMA Approval No:

Pack Sizes: 5L, 20L, 110L, 200L, 1000L

GENERAL INSTRUCTIONS

Rygel ProCanOil Spray Oil Concentrate will maximise the performance of horticultural and agricultural sprays by increasing droplet deposition, droplet spread and uptake into the target. Rygel ProCanOil Spray Oil Concentrate is designed to aid the formation of uniformly sized spray droplets, to reduce evaporation and therefore minimise drift. Rygel ProCanOil Spray Oil Concentrate is non-phytotoxic at recommended rates and is compatible with most commonly applied agricultural chemicals. It can be used with most herbicides, insecticides, fungicides and other foliar sprays.

MIXING INSTRUCTIONS

1. Rygel ProCanOil Spray Oil Concentrate must always be pre-mixed with the pesticide or foliar spray prior to adding to the spray tank or water. For small volumes of spray mix Rygel ProCanOil Spray Oil Concentrate thoroughly with the applicable pesticide or foliar spray.
2. If the pesticide is a wettable powder or dispersible granular formulation add water to the pesticide on a one to one basis and mix into a slurry. Add this mixture to the measured amount of Rygel ProCanOil Spray Oil Concentrate and follow the mixing instructions.
3. One third fill the spray tank with water
4. Add the pre-mixed spray to the water in the spray tank.
5. Top up the spray while continuously agitating.

PRECAUTIONS

1. Always mix pesticides into Rygel ProCanOil Spray Oil Concentrate one by one. DO NOT mix pesticides together and then add Rygel ProCanOil Spray Oil Concentrate.
2. It is recommended that when applying to a crop or test area for the first time or in combination with other chemicals a small test area should be sprayed and observed prior to the total crop spray. Avoid spraying in high temperatures or humidity conditions.

COMPATIBILITY

Rygel ProCanOil Spray Oil Concentrate is compatible with most commonly used agricultural and horticultural chemical products. Always check

the label on the product to be mixed with Rygel ProCanOil Spray Oil Concentrate.

PROTECTION OF WILDLIFE, FISH CRUSTACEA AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used container.

STORAGE AND DISPOSAL

Store in the closed, original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemical on-site. If recycling, replace cap and return clean containers to recycler or designated collection point.

If not recycling, break, crush, or puncture and bury empty containers in a local authority landfill. If not available bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, vegetation and roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS

Avoid inhalation of mist. Wear appropriate clothing as per the relevant agricultural chemical manufacturer's specifications. Avoid contact with eyes and skin.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26.

MATERIAL SAFETY DATA SHEET

Additional information is listed in the Material Safety Data Sheet (MSDS) that can be obtained from the supplier.

CONDITIONS OF SALE

The use of Rygel ProCanOil Spray Oil Concentrate being beyond the control of the manufacturer, no warranty expressed or implied is given by Rygel Australia Pty Ltd regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and Rygel Australia Pty Ltd accepts with no responsibility for any consequences whatsoever resulting from the use of this product.

In an Emergency Dial 000 Police or Fire Brigade

DIRECTIONS FOR USE

The volume of Rygel ProCanOil Spray Oil Concentrate used is relative to the amount of pesticide in the spray mix.
Use Rygel ProCanOil Spray Oil Concentrate up to a 1:2 volume basis with the chemical to be applied. The following dose rates should be used as a guide.

Situation	Rate	Critical Comments
Boomspray / Broadacre	1 – 2 L/ha	Use the lower rate when using low dose rate chemicals
Hand gun / Spot Spraying	200 mL /100L water	
Knapsack	20 – 30 mL/10L water	
Orchard spraying	100 – 200 mL /100L (high volume)	Do not use on table grapes during final stage of fruit growth as oil may disturb the bloom.
Vegetable spraying	100 – 250 mL /100L (high volume)	
Aerial or ULV	1 – 2 L/ha (low volume)	
Misting machine	1 – 2 L/ha (low volume)	

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS
AUTHORISED UNDER APPROPRIATE LEGISLATION**
